

HISTADA

Trilogy · part 1 · Board game · rules

Educational game for 1–12 players aged about 10+ · time: 30–120 min

GOAL

You travel through time and space. Every correct answer earns 10 points in one of nine intelligences. The first to reach the agreed goal (e.g. 1000 or 10,000 points) wins – everyone finishes the round so all players get the same number of turns.

COMPONENTS

Board (A1 world map or 8 A4 sheets), 36 domain cards with a box, 12 character sheets, dice: white d12, black d12, two grey d6, 12 pawns or tokens, score sheet, first-player marker.

SETUP

Each player chooses a character and takes its sheet and pawn. Pawns start on the START fields (player numbers along the map edge). Shuffle the domain cards and place them face down on the CARD DECK field. Agree on a points goal or a time limit.

QUESTIONS

Questions are shown by the HISTADA app (part 1, physical board mode): type or scan the field, dice and card. The app picks 9 questions for the place, epoch, time interval and domain, reads them aloud and keeps score.

PLAYER'S TURN

1. Roll all dice. The white d12 picks the epoch (from the Beginning of the Universe to the Future), the black d12 one of that epoch's 12 time intervals, and the sum of the grey d6 the maximum number of fields you may move. 2. Move your pawn up to that many fields. On your first turn, place your pawn on any land field. 3. Draw a domain card and put it on your character sheet. 4. Answer 9 questions – one for each intelligence.

PORTS AND THE SEA

Fields with a boat symbol are ports. Dashed lines are fast sea routes: sailing between connected ports counts as one step of movement.

POINTS

For each correct answer add 10 points to that intelligence's row and to the total row (gear dials on the sheet or the score sheet). Levels in each intelligence: Novice 10+, Adept 50+, Expert 150+, Master 300+, Grandmaster 600+.

END OF THE GAME

When someone reaches the goal, finish the round. The highest total wins. The app issues everyone a PDF certificate with their level in all nine intelligences.

HOW TO PRINT THE SET

COMPONENT	FORMAT	PAPER AND NOTES
A1 board	1 sheet 841 × 594 mm	paper 120–170 g/m ² ; ideally at a print shop; or 8 × A4 to glue together (version with glue margins)
Domain cards	8 A4 pages (fronts + backs)	card stock 250–300 g/m ² , double-sided, flip on the long edge; cut along the marks
Character sheets	12 A4 pages, landscape	card stock 200–250 g/m ² , double-sided; front + cheat sheet on the back
Dice	1 A4 page	paper 200–250 g/m ² ; cut, fold, glue the tabs
Pawns and tokens	1 A4 page	card stock 250–300 g/m ² ; tokens can be glued onto 9–10 mm buttons
Card box	1 A4 page, landscape	card stock 250–300 g/m ²
Score sheet	1 A4 page, landscape	plain paper, photocopiable
These rules	2 A4 pages	plain paper

Always print at 100% scale (“actual size”, no fit to page) – then a card measures 89 × 57 mm and fits the slot on the character sheet, and a pawn's base fits the circle on a board field.

NINE INTELLIGENCES

 musical-rhythmic sound, rhythm, music, instruments	 visual-spatial shapes, maps, images, space, architecture	 verbal-linguistic words, concepts, texts, word origins
 logical-mathematical numbers, dates, calculations, cause and effect	 bodily-kinesthetic movement, sport, crafts, tools, the body	 interpersonal people, cooperation, agreements, communities
 intrapersonal reflection, self-knowledge, values, diaries and confessions	 naturalistic nature, plants, animals, classification	 existential meaning, faith, ultimate questions, the cosmos

EPOCHS (WHITE D12)

1. Beginning of the Universe	13.8 bn years ago – 4.5 bn years ago	7. Industrial Revolution	1800–1900 AD
2. Beginning of the Earth	4.5 bn years ago – 5 m years ago	8. Era of the World Wars	1900–1950 AD
3. Prehistory	5 m years ago – 5000 BC	9. Cold War	1950–1990 AD
4. Antiquity	5000 BC – 500 AD	10. Digital Age	1990–2020 AD
5. Middle Ages	500–1500 AD	11. Present Day	2020–2025 AD
6. Renaissance – Age of Discovery	1500–1800 AD	12. Future	2025 AD – end of time

TURN SEQUENCE AND DICE

- 1

Roll · white d12 = epoch, black d12 = time interval, 2 grey d6 = move
- 2

Move · up to as many fields as the d6 show; port = sea route jump for 1 field
- 3

Card · draw a domain card and put it on your sheet
- 4

Questions · 9 questions: place × time × domain, one per intelligence
- 5

Points · for a correct answer turn that intelligence's dial and the total

White d12 · epoch

the black d12 splits the epoch into 12 intervals

1	Beginning of the Universe 13.8 bn years ago – 4.5 bn years ago · 1st interval: 13.8 bn years ago – 13.03 bn years ago
2	Beginning of the Earth 4.5 bn years ago – 5 m years ago · 1st interval: 4.5 bn years ago – 4.13 bn years ago
3	Prehistory 5 m years ago – 5000 BC · 1st interval: 5 m years ago – 4.59 m years ago
4	Antiquity 5000 BC – 500 AD · 1st interval: 5000 BC – 4542 BC
5	Middle Ages 500–1500 AD · 1st interval: 500–583 AD
6	Renaissance – Age of Discovery 1500–1800 AD · 1st interval: 1500–1525 AD
7	Industrial Revolution 1800–1900 AD · 1st interval: 1800–1808 AD
8	Era of the World Wars 1900–1950 AD · 1st interval: Jan 1900 – Mar 1904
9	Cold War 1950–1990 AD · 1st interval: Jan 1950 – May 1953
10	Digital Age 1990–2020 AD · 1st interval: Jan 1990 – Jul 1992
11	Present Day 2020–2025 AD · 1st interval: Jan 2020 – Jun 2020
12	Future 2025 AD – end of time · 1st interval: 2025–2050 AD

End of the game

The first to reach 10,000 points in the total row wins (everyone finishes the round), or has the most points when the agreed time runs out (timer in the app).
HISTADA app: scan the field and dice with your phone, the questions appear on screen.

DICE TO GLUE

Cut along the outer lines (tabs included), fold all face edges, apply glue to the grey tabs and glue from the inside.
Paper 200–250 g/m². White d12 = epoch (1–12), black d12 = time interval (1–12), two grey d6 = fields of movement.

WHITE d12 · EPOCH

BLACK d12 · INTERVAL

TWO GREY d6 · MOVE

PAWNS AND TOKENS

Tent pawn: cut out the strip, fold along the dashed lines into a triangle (panel · panel), bend the feet outwards and glue them together. The 9 × 9 mm base fits the circle of a board field. Card stock 250–300 g/m².

Character tokens · Ø 9 mm (instead of pawns, e.g. glued onto buttons or coins)

Nation tokens (per GDD) · 6 colours × woman ○ / man △ · Ø 9 mm

First-player marker and round marker

Move the round marker along the score sheet (separate sheet).
The first player starts every round; the last round is always finished.

BOX FOR 36 CARDS

Card stock 250–300 g/m². Cut along solid lines, fold along dashed ones. Glue the “glue” tab to the side from the inside.

SCORE SHEET

Date: _____ Goal: _____ pts

Write down the points earned each round (0–90). Column Σ = total. The first to reach the goal wins – everyone finishes the round.

PLAYER / CHARACTER	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	Σ
1 Cartographer _____																
2 Astronomer _____																
3 Alchemist _____																
4 Chronicler _____																
5 Sailor _____																
6 Builder _____																
7 Herbalist _____																
8 Inventor _____																
9 Philosopher _____																
10 Musician _____																
11 Physician _____
